

To access the TinkerPlots program, you must be in a school building, because the information is on Middletown's server. Follow these simple steps:

- (1) Click on "GO" on the top of your computer screen.
- (2) Select "Connect to Server"
- (3) **Server Address:** 10.8.8.149
- (4) **Username:** tinkerplots
- (5) **Password:** middies
- (6) There are several folders available, depending on your need:
  - a. Data and Demos (Contains all of the data folders)
  - b. TinkerPlots Help (Contains multiple documents and movies to assist you in using TinkerPlots)
  - c. TinkerPlots OSX (Allows you to create brand new graphs from data you input)
  - d. TinkerPlots Read-Me.html

For additional support, you may go to the following site at Key Curriculum
