Congratulations to our top sellers, Breana Hurt, \$346.00, Alexis Banks, \$300.00 and Katie Lykins, \$246.00. This profit will enable the school to have our end of the year Lawn Fete. The Lawn Fete will take place on Saturday, May 22 from 11:00 AM to 3:00 PM. This event is for our kids, so we would appreciate volunteers. Flyers will be coming home soon. ### Recycling

By: Maria Heredia

The main purpose of recycling is to save our planet earth. Some things you can recycle are newspaper, glass, cardboard, and aluminum cans. A place where you can get a red recycling bin if you want or need one is in Middletown. Our Mayfield community should recycle because recycling saves energy. It takes far less energy to produce goods from recycled metal, glass, and paper, than from raw material. For example, it takes 70 percent less energy to produce aluminum from recycled products, because recycled objects take less energy to make, and factories create less air and water pollution. Recycling creates jobs. Thousands of new jobs could be created by increasing the number of recycling programs and businesses that involve recycling. Recycling reduces garbage. Every item that goes into the recycling bin is one less item in a landfill site. Recycling conserves natural resources. That's why I think we should recycle.
